What is this product?

Type:

This product is a non-UCITS Fund.

Term:

This product is open ended.

Objectives:

The aim of the Fund is to achieve long-term capital growth and has been established for the purpose of marketing to charities. The Fund seeks to achieve its objective through investment directly and/or indirectly in a broad range of bonds and Irish and international equities listed or traded on Recognised Exchanges worldwide. The asset mix will reflect the Investment Manager's investment outlook at any time, subject to a maximum equity weighting of 80% of the overall portfolio. All actively managed fixed interest and listed equity holdings, including actively managed collective investment schemes in which the Fund invests, are passed through the Investment Manager's ethical screening process before being added to the Fund.

The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

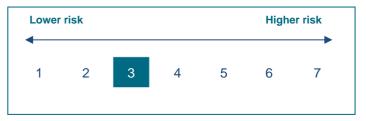

This share class does not pay a dividend. Any income arising from the share class will be re-invested.

Intended retail investor:

This product is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is "a medium-low" risk class. This rates the potential losses from future performance at a medium-low level, however poor market conditions may still impact the ability to provide a positive return on your investment.

The Risk Factors applicable to the Fund are liquidity risk, counterparty risk, emerging markets risk, currency risk, operational risk and interest rate risk. Please read the Fund's Annual Report or Prospectus at www.kbiglobalinvestors.com for these and other relevant risks.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the KBI Ethical Managed Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if KBI Global Investors is unable to pay out?

In certain circumstances, you may face financial loss should KBI Global Investors Ltd or Amundi Ireland Ltd or the Depositary (Northern Trust Fiduciary Services (Ireland) Ltd), default on their respective obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is GBP 10,000.

| Investment: GBP 10,000 | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs | 134 GBP | 782 GBP |
| Annual cost impact (*) | 1.3% | 1.2% |

^(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.1% before costs and 6.9% after costs.

² This type of scenario occurred for an investment between July 2015 and July 2020.

³ This type of scenario occurred for an investment between August 2013 and August 2018.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Fund is designed to be held over the medium term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

How can I complain?
